4th May 2011

Allergen Statement

European Directives (2003/89/EC) and (2006/142/EC) require the identification and mandatory labelling of fourteen major allergens and their derivatives in all food products sold in Europe. These are:-

Cereals containing Gluten
Fish
Crustaceans
Milk
Egg
Soy Bean
Molluscs
Lupins

Peanuts
Tree Nuts
Mustard
Sesame Seeds
Celery
Sulphites and Sulphur Dioxide (over
10ppm)

Fever Tree Ltd can confirm that none of these allergens or their derivatives are present in or added to its products*, or are present in the production facility.

Signed: 

James Page
Quality Assurance

Fever-Tree Ltd

*Fever-Tree Ltd is a nut and sesame free operation, and takes all reasonable precautions to ensure that the raw materials it uses are nut and sesame free. It is however impossible to give an absolute guarantee that one of the ingredients of ginger beer is nut and sesame free due to potential cross contamination risks that exist in its supply chain and are out of Fever-Tree's control.
